You will not have to pay a fee to access your personal data (or to exercise any of the other rights). However, we may charge a reasonable fee if your request is clearly unfounded, repetitive or excessive. Alternatively, we may refuse to comply with your request in these circumstances.

What we may need from you

We may need to request specific information from you to help us confirm your identity and ensure your right to access your personal data (or to exercise any of your other rights). This is a security measure to ensure that personal data is not disclosed to any person who has no right to receive it. We may also contact you to ask you for further information in relation to your request to speed up our response.

Time limit to respond

We try to respond to all legitimate requests within one month. Occasionally it may take us longer than a month if your request is particularly complex or you have made a number of requests. In this case, we will notify you and keep you updated.

We make sure we consider and balance any potential impact on you (both positive and negative) and your rights before we process your personal data for our legitimate interests. We do not use your personal data for activities where our interests are overridden by the impact on you (unless we have your consent or are otherwise required or permitted to by law). You can obtain further information about how we assess our legitimate interests against any potential impact on you in respect of specific activities by contacting us at dataprotection@gamertoken.com

YOUR LEGAL RIGHTS

You have the right to:

Request access to your personal data (commonly known as a "data subject access request"). This enables you to receive a copy of the personal data we hold about you and to check that we are lawfully processing it.

You may send an email to dataprotection@gamertoken.com requesting information as the personal data which we process. You shall receive one copy free of charge via email of the personal data

which is undergoing processing. Any further copies of the information processed shall incur a charge of € 25.

Right to information when collecting and processing personal data about you from publicly accessible or third party sources. When this takes place, we will inform you, within a reasonable timeframe, about the third party or publicly accessible source from which we have collected your personal data.

Request correction or rectification of the personal data that we hold about you. This enables you to have any incomplete or inaccurate data we hold about you corrected and/or updated, though we may need to verify the accuracy of the new data you provide to us.

Request erasure of your personal data. This enables you to ask us to delete or remove personal data where:

- there is no good reason for us continuing to process it;
- you have successfully exercised your right to object to processing (see below);
- we may have processed your information unlawfully; or
- we are required to erase your personal data to comply with local law.

Note, however, that we may not always be able to comply with your request of erasure for specific legal reasons which will be notified to you, if applicable, at the time of your request.

Object to processing of your personal data where we are relying on a legitimate interest (or those of a third party) and there is something about your particular situation which makes you want to object to processing on this ground as you feel it impacts on your fundamental rights and freedoms. You also have the right to object where we are processing your personal data for direct marketing purposes.

In some cases, we may demonstrate that we have compelling legitimate grounds to process your information which override your rights and freedoms.

Request restriction of processing of your personal data. This enables you to ask us to suspend the processing of your personal data in the following scenarios:

- if you want us to establish the data's accuracy;
- where our use of the data is unlawful but you do not want us to erase it;
- where you need us to hold the data even if we no longer require it as you need it to establish, exercise or defend legal claims; or
- you have objected to our use of your data but we need to verify whether we have overriding legitimate grounds to use it.

Request the transfer (data portability) of your personal data to you or to a third party. We will provide to you, or a third party you have chosen, your personal data in a structured, commonly used, machine-readable format. Note that this right only applies to automated information which you initially provided consent for us to use or where we used the information to perform a contract with you.

Withdraw consent at any time where we are relying on consent to process your personal data. However, this will not affect the lawfulness of any processing carried out before you withdraw your consent. Withdrawal of consent may, however, affect or impair the possibility of us providing you with the Services. We will advise you if this is the case at the time you withdraw your consent.
